CNHT Statement on Expanded Gambling and SB 152

Concord, NH — The Coalition of NH Taxpayers has always been opposed to casinos and expanded gambling for New Hampshire. Studies of casino gambling consistently demonstrate they are not a reliable source of revenue.

As a taxpayer advocacy organization, we're not in favor of a roller coaster ride when it comes to the state budget. Therefore we oppose SB 152.

Founded in 1999, The Coalition of NH Taxpayers is NH's statewide taxpayer umbrella group. CNHT's goal is to reduce the size of government at all levels, put a stop to judicial activism, provide students and parents with a choice of educational opportunities, expand our job market, and protect our ever shrinking property rights. CNHT strives to keep taxes low, government small and honest, protect individual rights and freedoms, and preserve the "New Hampshire Advantage". CNHT strongly believes that good government that serves the people should be limited and fiscally prudent.
